PROJECTS

USER MANAGEMENT SYSTEM

Now a days, Every company wants to manage their customers details. To help the company I created a user management website for creating, updating and deleting the user. HTML, CSS, JS and ReactJS were used.

<https://github.com/DurgaPrasadGadila/User-Management-System>

TOURISM DB MANAGEMENT SYSTEM

A team of 5 members involved in this project. My contribution in this project is developing the schema and E-R model. This project will help the travelers to plan their tours. We used Oracle SQL.

DICE ROLLING SIMULATOR (TKINTER)

Dice Rolling simulator plays an important role in gambling games or any fun games like ludo, s&l etc. Developed a GUI using python Tkinter.

DECLARATION

I hereby declare that all the above information is correct and accurate to the best of my knowledge and belief.
